Just a few comments:

"John Milner left me 'gob-smacked'. Its fun to be fooled by this charming, disarming and likeable personality."

"I don't know whether you get used to the incredulity written very large on the faces of those you entertain, but I certainly had great fun watching not only your logic defying magic, but the faces of those around you."

"We had so many cards and calls from our guests asking if we knew how you did your tricks.....as if !!."

"I have had superb feedback."

"Under difficult conditions, your magic show and general entertainment at our Saturday Night event was spectacular"

"His professional yet friendly approach certainly had the desired effect of drawing people onto our stand. It was important we did something to make people aware of our new identity, and Johns talents definitely helped to achieve this."

"For the organisers he was manna from heaven. Without doubt we simply cannot praise him too highly."
